COMMON POST QUESTIONS

Are posts only for Instagram, Twitter, Facebook, and LinkedIn?

No, but they're the most popular so we offer postings specifically for these (3), but if you contact us, we can design for other platforms as well.

Why should I get designed content?

Customers don't check your website every day, but they do check social media and when they come across your content, your imagery should be as **PROFESSIONAL & HIGH QUALITY**, as your website.

How often should I post on social media?

What your posting is most important, but the frequency depends on business goals. What is your goal for social media usage? How much of your target market uses social media? What do your customers need/want, that you could showcase via social media?

SOCIAL MEDIA CHAMPAGNE CAMPAIGN SET UP

Setting up your social media campaign/advertisements

\$55

(\$35 per campaign
set up + \$20 graphic)

A social media campaign is: a social media advertising strategy to improve brand awareness, social media user interaction, and business goals by running ads on social media. The ads will run for a set duration (days/weeks) and will require a set budget (Example \$15 a day). The longer you let the ad run essentially this increases the chances of the ad being seen, which could lead to more sales/interest in your business, products, and/or services.

THE PROCESS & WHAT'S INCLUDED

1. Tell us the goal of your campaign Example: more sales, more website views, more social media views
2. We will do research to identify best marketing strategy to use
(INCLUDES RESEARCH)
3. We will design the graphic for your campaign
(INCLUDES CAMPAIGN IMAGE)
4. We will identify what the campaign wording should say
(INCLUDES VERBIAGE)
5. We will identify the demographic of your target market Ex. Gender, Location, Interests **(INCLUDES DEMOGRAPHICAL CRITERIA)**
6. We will start the campaign & let it run for our agreed upon days for the agreed upon \$ you will spend each day (campaign \$ not included in the campaign set up fee)
7. Once the campaign is complete, we will share the analytics with you; Example: how many people saw the ad, more traffic views, etc.
(INCLUDES ANALYTICS)

OTHER SOCIAL PLATFORMS

Did you know videos can be more effective than a photo? **YouTube & Vimeo** are top platforms to share videos

VIDEOS ARE GREAT FOR:

- Explainer Videos/Demonstrations
- Creating Interactive Viewing experiences
 - Enhanced Portfolio Display
 - Generating Leads + Sales
- Adding another layer of professionalism
